Quessua Agriculture: Advance # 3022272

1

"For to us a child is born, to us a son is given and the government will be on his shoulders. And He will be called Wonderful counselor, Mighty God, everlasting father prince of peace"
ISAIAH 9: 6

December 25, 2017

Dear friends and families,
Receive our warm greetings from UMC Quessua Mission Agriculture Project. We do hope that our last newsletter of the year reaches you healthy as we are all looking forward to enter the New Year and celebrate the great event of the birth of our savior and Lord Jesus Christ. My family and I are doing fine and we thank God for his love and protection during the whole year. As a family we are going to be together for a Joyous Christmas and New Year. Quessua Mission is getting Quiet this period of the year with the closing of school and students have returned back to their homes for the upcoming events.

Quessua Mission Agriculture was blessed one more time; God continues showing is love to the people of Quessua Mission by receiving Missionaries visitors this time from Yellowstone and Florida conference. It was great to have them around us and witness God's Mission through us in Quessua.

We worked together at the farm and their Visit and support was of great impact to our Project.

With Missionaries at the farm

Different varieties of trees and fruit trees have been planted around Quessua Mission as supplement of vitamins to school dorm and Families around Quessua. In the villages we have encouraged the community to plant some fruit trees at their yards. Our orchard at Quessua is being a good example to encourage others to do the same. We had a work shop with primary school pupils on the

importance of planting trees and fruit trees. It was a successful experience, educating young people on the importance of having trees and fruit trees around us. We took the same opportunity to plant together with school pupils some fruits trees around their school.

Fruit trees planting training at school

Field crops

This year we planted about three hectares of maize that is growing well and we are looking forward for a good harvest by next year. Soon Quessua agriculture will be equipped of some agricultural equipment that will allow us to have different varieties of crops for food and easy accessibility by the community and students dorm.

Egg plant field

With the effort of the students by learning and practicing, our banana orchard planted last year has already started giving us good results. This year the banana orchard has been expanded again for more productivity
